Antonio Da Ressurreição Filho

Computer Science Student specializing in Cybersecurity

I am driven by a passion for technology, especially Cybersecurity. Therefore, I aspire to become a top cybersecurity expert, using my knowledge to help create a safer digital world and make a positive impact on society

EDUCATION

Computer Science undergraduate
Universidade Federal do Paraná (UFPR)

01/2024 - Present   *Curitiba, Brazil*

GPA
- 3.32

PERSONAL PROJECTS

Systems Calls Project (01/2025 - Present)
- Developed a research-driven project inspired by scientific papers on artificial immune system models. This project revisits an overlooked approach to intrusion detection focusing on simpler detection techniques. Designed and implemented a Python-based system that automatically analyzes various types of system calls from key native Unix/Linux functions.

Projects in my first and second period of University (03/2024 - 12/2024)
- I developed several projects using C, C++, and Python. These projects include a Strong Password Generator, a complex program simulating the popular TV series *The Boys* , and an algorithm for sorting and searching that incorporates multiple methods for ordering and searching a vector.

SKILLS

`Pascal` `Python` `C++` `C` `HTML`

`Linux` `GitHub` `Visual Studio Code` `Vim`

CERTIFICATES

Python for Cybersecurity (02/2025 - 02/2025)
https://github.com/Antonio-RF/Capture-The-Flag/blob/main/Certificates/python_cybersecurity.jpg

Pre-Security (02/2025 - 03/2025)
https://github.com/Antonio-RF/Capture-The-Flag/blob/main/Certificates/Pre-security.jpg

HTML Course (03/2025 - 03/2025)
https://github.com/Antonio-RF/Capture-The-Flag/blob/main/Certificates/HTML_Course.jpg

LANGUAGES

Portuguese
Native or Bilingual Proficiency

English
Professional Working Proficiency

INTERESTS

`Cybersecurity` `Competitive-Programing`

`Captures the Flag` `Pentesting web`
